These comments would also be made available to the public but not before the expiration of 30 months from the priority date.

Within **19 months** from the priority date, but only in respect of some designated Offices, a demand for international preliminary examination must be filed if the applicant wishes to postpone the entry into the national phase **until 30 months** from the priority date (in some Offices even later); otherwise, the applicant must, **within 20 months** from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices.

In respect of other designated Offices, the time limit of **30 months** (or later) will apply even if no demand is filed within 19 months.

See the Annex to Form PCT/IB/301 and, for details about the applicable time limits, Office by Office, see the *PCT Applicant's Guide*, Volume II, National Chapters and the WIPO Internet site.

The opinion as to Inventive Step was positive (Yes) with respect to claims 2-12, 14-25, 27-40, 42-49, 51-58, 68, 71 and 73-75  
The opinion as to Inventive Step was negative (NO) with respect to claims 1, 13, 26, 41, 50, 59-67, 69, 70 and 72  
The opinion as to Industrial Applicability was positive (YES) with respect to claims 1-75  
The opinion as to Industrial Applicability was negative (NO) with respect to claims NONE

**V. 2. Citations and Explanations:**

Claims 1, 13, 26 and 41 lack novelty under PCT Article 33(2) as being anticipated by Rockower et al., U.S. 5,306,101

Regarding claim 1, Rockower et al. discloses a support member (11), a cutting device (25,29,32) and an expandable device (15) radially expanding and plastically deforming the tubular (figs 6-12).

As to claim 13, Rockower et al. discloses a sealing device (17).

As to claim 26, Rockower et al. discloses the plurality of moveable (rotatable) cutting elements (25,29,32) coupled to and a support member (27,30,34).

As to claims 41, Rockower et al. discloses a plurality of expansion devices (fig 27-35).

Claims 50, 59-67, 69, 70 and 72 lack novelty under PCT Article 33(2) as being anticipated by Trahan et al., U.S. 6,325,148.

Regarding claims 50 and 69, Trahan et al. discloses a support member (250) an expansion device (100) radially expanding and plastically deforming the tubular (225) and an actuator (103; col. 2, lines 20-27).

As to claims 59-67, Trahan et al. discloses a plurality of radially and axially moveable gripping members (230), moveable from a first position to a second position in radial and axial directions relative to the support member (250).

As to claim 70, Trahan et al. discloses a sealing device (seals on piston 260).

As to claim 72, Trahan et al. discloses a locking device (230).

Claims 2-12, 14-25, 27-40, 42-49, 51-58, 68, 71 and 73-75 meet the criteria set out in PCT Article 33(2)-(3).

The prior art of record does not teach or fairly suggest the expansion device and gripping device.

The prior art of record does not teach or fairly suggest the sealing device seals an annulus between the support device and the tubular member.

The prior art of record does not teach or fairly suggest an expansion device and a locking device to lock the tubular member relative to the support member.

The prior art of record does not teach or fairly suggest a packer assembly.

The prior art of record does not teach or fairly suggest an expansion device and actuator for displacing the expansion device relative to the support member.

The prior art of record does not teach or fairly suggest the cutting elements having a first and second position.

The prior art of record does not teach or fairly suggest a plurality of movable expansion elements coupled to the support member.

The prior art of record does not teach or fairly suggest an adjustable expansion device.

The prior art of record does not teach or fairly suggest an expansion device actuator and cutting device.

The prior art of record does not teach or fairly suggest the gripping members biased to remain in the first position.

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.  
PCT/US04/11973

**Supplemental Box**

In case the space in any of the preceding boxes is not sufficient.

Claims 1-75 meet the criteria set out in PCT Article 33(4), and thus positive industrial applicability because the subject matter claimed can be made or used in industry.

## NOTES TO FORM PCT/ISA/220 (continued)

The letter must indicate the differences between the claims as filed and the claims as amended. It must, in particular, indicate, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether

- (i) the claim is unchanged;
- (ii) the claim is cancelled;
- (iii) the claim is new;
- (iv) the claim replaces one or more claims as filed;
- (v) the claim is the result of the division of a claim as filed.

The following examples illustrate the manner in which amendments must be explained in the accompanying letter:

1. [Where originally there were 48 claims and after amendment of some claims there are 51]:  
"Claims 1 to 29, 31, 32, 34, 35, 37 to 48 replaced by amended claims bearing the same numbers; claims 30, 33 and 36 unchanged; new claims 49 to 51 added."
2. [Where originally there were 15 claims and after amendment of all claims there are 11]:  
"Claims 1 to 15 replaced by amended claims 1 to 11."
3. [Where originally there were 14 claims and the amendments consist in cancelling some claims and in adding new claims]:  
"Claims 1 to 6 and 14 unchanged; claims 7 to 13 cancelled; new claims 15, 16 and 17 added." or  
"Claims 7 to 13 cancelled; new claims 15, 16 and 17 added; all other claims unchanged."
4. [Where various kinds of amendments are made]:  
"Claims 1-10 unchanged; claims 11 to 13, 18 and 19 cancelled; claims 14, 15 and 16 replaced by amended claim 14; claim 17 subdivided into amended claims 15, 16 and 17; new claims 20 and 21 added."

### -Statement under Article 19(1)" (Rule 46.4)

The amendments may be accompanied by a statement explaining the amendments and indicating any impact that such amendments might have on the description and the drawings (which cannot be amended under Article 19(1)).

The statement will be published with the international application and the amended claims.

It must be in the language in which the international application is to be published.

It must be brief, not exceeding 500 words if in English or if translated into English.

It should not be confused with and does not replace the letter indicating the differences between the claims as filed and as amended. It must be filed on a separate sheet and must be identified as such by a heading, preferably by using the words "Statement under Article 19(1)."

It may not contain any disparaging comments on the international search report or the relevance of citations contained in that report. Reference to citations, relevant to a given claim, contained in the international search report may be made only in connection with an amendment of that claim.

### Consequence if a demand for international preliminary examination has already been filed

If, at the time of filing any amendments and any accompanying statement, under Article 19, a demand for international preliminary examination has already been submitted, the applicant must preferably, at the time of filing the amendments (and any statement) with the International Bureau, also file with the International Preliminary Examining Authority a copy of such amendments (and of any statement) and, where required, a translation of such amendments for the procedure before that Authority (see Rules 55.3(a) and 62.2, first sentence). For further information, see the Notes to the demand form (PCT/IPEA/401).

### Consequence with regard to translation of the international application for entry into the national phase

The applicant's attention is drawn to the fact that, upon entry into the national phase, a translation of the claims as amended under Article 19 may have to be furnished to the designated/elected Offices, instead of, or in addition to, the translation of the claims as filed.

For further details on the requirements of each designated/elected Office, see the *PCT Applicant's Guide*, Volume II.
